Type 2 Diabetes Solution

FOR GREENBERG TRAURIG

With Level2 Specialty Care, employees work to feel better.

level2®

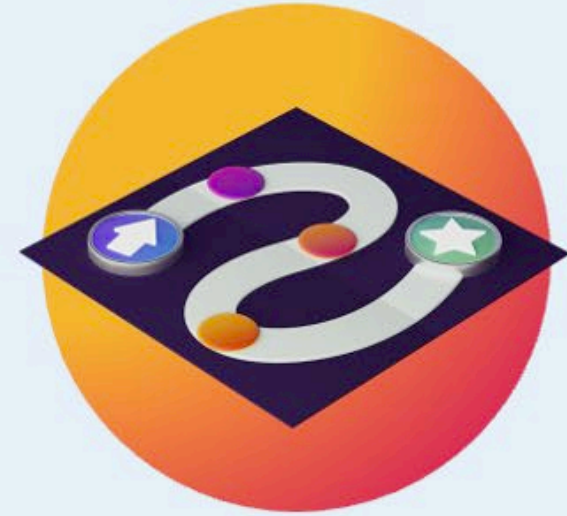

Insights

Starting with continuous glucose monitor (CGM) helps members better see and understand glucose.

Care Team

Access to a virtual care team of type 2 diabetes experts helps members build new habits.

Level2 Method:

An evidence-based approach to help members work to try and improve their glucose control in a series of phases.

Coming Soon!

Included next year with select UnitedHealthcare® health plans at no extra cost.

In the meantime, call to learn more. 1-844-302-2821 (TTY 711)

United Healthcare level2

Success! Let's get your shipping information.

One of the coolest things about Level2 Specialty Care is seeing exactly how food, movement, stress, sleep and more affect your glucose – and you do that with a continuous glucose monitor (CGM). Can you please tell us where to ship that CGM (and a few other goodies)?

Great! Your Level2 Specialty Care setup kit is on the way and you're about to begin working with us to pave a path to better health. 😊

Next: Watch your inbox for emails about your next steps in Level2, including meeting your care team and learning how to use your CGM. You'll discover all kinds of new ways to improve your glucose and feel better.

And please go ahead and download the Level2 app. It's how you'll connect with your care team!

YOUR CALL IS SCHEDULED FOR:

Wednesday, January 6 at 5:00 pm CST

If you need to change this, please call us at 1-844-302-2621.
